Interview with Guy Sidos, Chairman and Chief Executive Officer

“
*We are an industrial company
marked by a strong culture
of innovation, now mobilized for
ecological and energy transitions.*”

Guy Sidos

First of all, how do you see the health crisis that has disrupted our lives and, beyond that, the global economy?

I was impressed by the quality and effectiveness of our collective response. Thanks to the commitment of our employees around the world, our results, driven by the dynamism of our latest developments, have improved in all areas: industrial and environmental, commercial, financial, but also security and cybersecurity, which is becoming a major subject.

The provisions of our continuity plans, launched in February 2020, have made it possible to protect, produce and sell. Our strategy has shown its strength and resilience: in local markets, following the principles of the circular economy, and at international level to balance risks geographically. More than these technical elements, the crisis has highlighted the importance of the human factor in its most noble dimensions of courage, commitment, solidarity, benevolence and competence.

Despite the social distancing measures, we have never been so close and this makes us proud! I would also like to salute the work of the Louis Vicat Foundation, which, through its initiatives and its proximity to the teams, helped to make this period less difficult.

“ Thanks to its solid fundamentals, our Group can approach 2021 with confidence and look to the future, with the aim of stepping up efforts to decarbonate our processes and our products ”

This crisis has also permanently modified our relationship with work, with the successful introduction of remote working, the elimination of certain unnecessary tasks, and finally the search for optimal efficiency. It has opened up opportunities and accelerated ecological and digital transitions. Thanks to a solid foundation, we can approach 2021 with confidence and look to the future, with the aim of intensifying our efforts in the decarbonation of our processes and our products.

Is the Vicat Group business model aligned with the need to accelerate adaptation to climate change?

Our Group is marked by five main principles that guarantee its past, present and future success. The first of these values is our **regional roots**, reaffirmed by the relocation of our head office from Paris La Défense to L'Isle d'Abeau, in the Auvergne-Rhône-Alpes region, in October 2020. This decision has enabled us to bring together all of our Group departments in a single location, thereby promoting synergies and decision-making.

Second value: our **partnership commitment**, affirming our desire to build business relationships or collaborations in the regions, with all stakeholders, in a long-term approach. Next comes **responsible sustainability**, in order to incorporate the impact of our actions on the environment and the quality of life of the people living in the regions where the Group operates, and **shared passion**, the driving force behind our employees' commitment to serving our customers. Finally, we are still an industrial company, marked by a strong **culture of innovation**, with resources that are now being strengthened and mobilized for the ecological and energy transitions.

In early 2020, Vicat's governance set up a Climate Strategy Department which is working to define, coordinate and implement the means to address this issue, which is simple in its principles but complex in its implementation. There is no single technical solution, but a myriad of solutions adapted to each region. The overall number of projects related to the decarbonation of the value chain has therefore increased significantly from 41 projects in 2019 to 53 projects in 2020. And the amount

Investments related to decarbonation doubled in 2020

of investments related to these decarbonation projects has more than doubled: they rose from € 23 million in 2019 to € 52 million in 2020.

In this context, how do you qualify the Group's financial results in 2020?

The Group's results in 2020 reflect a solid operating performance, with EBITDA of € 557 million, up 10% at constant scope and exchange rates. The Group's financial statements were affected by the negative impact of currency effects of more than € 100 million on revenue and almost € 24 million on EBITDA. Consolidated net income amounted to € 172 million, an increase of 7.7% and 16.3% at constant scope and exchange rates.

The strong generation of operating cash flows and a significant reduction in working capital requirement have made it possible to reduce the net financial debt by € 88 million, while the industrial investment effort reached € 300 million. The successful refinancing of the USPP for € 175 million at 15 years has enabled the Group to post a significant increase in the average maturity of its debt at more than five years.

The commitment to the year's management did not cause us to lose sight of the long-term. The project to build a new kiln system at the Ragland plant in Alabama is continuing at a steady pace, with a view to come on stream in the first half of 2022. The investment effort also focused on numerous energy efficiency projects, the development of secondary fuels and the production of low-carbon energy with the commissioning of two solar farms, in India and Senegal.

* EBIT is calculated as EBITDA less net depreciation, amortization and provisions on ongoing business.

The principal indicators used by the Group for measuring financial and industrial performance are EBITDA and EBIT, which are shown in the published income statement. These aggregates are defined in note 1.23 to the consolidated financial statements, while the relations between gross operating income, EBITDA, EBIT and operating income are presented in the consolidated income statement. Segment information is set out in note 25 to the consolidated financial statements in section 6.1 of the Universal Registration Document.

(1) EBITDA (Earnings Before Interest, Tax, Depreciation and Amortization): gross operating income plus other ordinary income and expenses.

(2) 2018 figures restated following the adoption of IFRS 16.

in 2020

The main indicators which will be commented upon are as follows:

- sales revenues, which are mainly composed of billings for products delivered and services rendered during the period, in particular the transport of goods re-invoiced to the customer;
- the non-accounting indicators mentioned above.

Consolidated income statement

2020 was severely disrupted by the Covid-19 epidemic. The Group's activities in its twelve countries of operation have been affected asymmetrically depending on the political responses to the pandemic. Thus, India, France and Italy recorded a sharp decline in their sales during the first half of the year before rebounding in June. The decrease in consolidated sales revenue of -3.2% in the first half was erased in the second half, which increased by +13.8% at constant scope and exchange rates. For the year as a whole, the Group's consolidated sales revenue amounted to € 2,805 million, an increase of +2.4% on a reported basis compared to 2019, and +5.5% at constant scope and exchange rates.

The key factors driving consolidated sales revenue were:

- a +0.7% scope effect, *i.e.* a positive impact of +€ 20 million, due in particular to the consolidation of Ciplan in Brazil over the year as a whole and small acquisitions in the Concrete and Aggregates business in Europe;
- an unfavorable currency effect of -3.7%, corresponding to a negative impact of -€ 105 million over the year due to the appreciation of the euro;
- and lastly, organic growth in activity (+5.5%) in all regions, except France.

Consolidated EBITDA reached € 557 million, up +5.9% on a reported basis and +10.1% at constant scope and exchange rates. The EBITDA margin increased by 0.7 point to 19.9%. The change in reported EBITDA was the result of a slightly positive scope effect (less than +€ 2 million), an unfavorable currency effect of nearly -€ 24 million and, finally, solid organic EBITDA growth of +€ 53 million.

At constant scope and exchange rates, the increase in EBITDA is the result of:

- growth in activity, despite the impact of the health crisis;
- positive effects of the cost reduction plan and the reduction in energy costs, amounting to around € 57 million;
- a good general trend in selling prices, with the exception of the Mediterranean area;
- a very clear improvement in EBITDA generated in the Americas (particularly in Brazil) and Asia;
- a significant increase in EBITDA in the Africa region, supported by the improvement in industrial performance in Senegal and the ramp-up of the grinder in Mali in a context of favorable volumes and prices.

These positive elements compensated for:

- a measured contraction in EBITDA generated in France, as a result of the impact of the pandemic on all activities in the first half;
- total stoppage of activity for 30 days in Italy and 33 days in India;
- the impact of the deteriorated macroeconomic and competitive climate in Turkey and Egypt;
- an unfavorable comparison basis on a non-recurring item in Brazil in the amount of € 6 million.

EBIT reached € 298 million compared to € 267 million in 2019, up +11.7% on a reported basis and +17.5% at constant scope and exchange rates. The EBIT margin on consolidated sales revenue improved by almost one point to 10.6%. This change reflects continued improvement in operating profitability in the Americas, Africa and Asia. The sharp upturn in activity observed in France from the third quarter onwards did not fully offset the decline recorded during the first half of the year. Lastly, in view of the factors mentioned above, the Europe (excluding France) and Mediterranean regions posted a decline in their operating profitability over the entire period.

Operating income rose +6.3% on a reported basis and +13.4% at constant scope and exchange rates. This performance reflects improvements in EBITDA and EBIT, a tax amnesty in Brazil amounting to € 6 million, and, finally, impairment of assets related to Egypt for -€ 19 million.

The +€ 3 million improvement in **net financial income** is explained in particular by a tax amnesty in Brazil for € 2 million, and reflects the control of the Group's indebtedness in 2020 in the context of the health crisis.

Income tax expense increased by -€ 7 million given the increase in income before tax. The apparent rate was stable compared to 2019, at 30.7% compared to 30.6%. This stability of the tax rate takes into account a slight improvement in the rates in France and Switzerland as well as a deferred tax income related to the extension of the amendment to the mining agreement in Senegal. These positive elements offset the unfavorable impact of the increase in the non-taxable loss in Egypt, the end of the tax exemption in Kazakhstan, and a negative adjustment of deferred tax assets in India given the reduction in the tax rate of Kalburgi Cement.

Consolidated net income totaled € 172 million, up +7.7% on a reported basis and +16.3% at constant scope and exchange rates, despite the impairment of assets related to Egypt. The improvement in results generated in Brazil and India is reflected in a significant increase in the share of minority interests. On this basis, Group share of net income increased by +10.7% at constant scope and exchange rates and +4.8% on a reported basis, to € 156 million.

Operating cash flow amounted to € 461 million, up +8.3% on a reported basis and +12.9% at constant scope and exchange rates, given the strong growth in EBITDA generated during the year.

Vicat Company operations

Vicat company cement sales in 2020 amounted to 3.0 million tonnes, stable compared to 2019. Paper and packaging volumes respectively reached 18 thousand tonnes and 62 million bags.

Total sales were € 441 million in 2020, compared with € 433 million in 2019, increasing +1.9%.

Net profit was € 97,7 million in 2020, compared with € 104,9 million in 2019, after factoring in € 2.8 million for employee profit-sharing and € 12.6 million for corporate income tax.

Cash flows from operations were € 126 million in 2020 compared with € 130 million in 2019.

The Board of Directors proposes the distribution of a dividend of € 67.35 million, equivalent to a gross dividend of € 1.50 per share (excluding levies), identical to the previous year.

Having reviewed the special report issued by the statutory auditors on agreements specified in article L. 225-38 of the French Commercial Code, the Ordinary General Meeting duly notes the conclusions of this report and formally acknowledges that there were no agreements covered by these provisions during the past financial year.

SIXTH RESOLUTION

(Authorization to empower the Board of Directors to purchase, hold or transfer the Company's shares and approval of the share buy-back program)

Having reviewed the Board of Directors' special report and the description of the share buy-back program contained in this Universal Registration Document, the Ordinary General Meeting hereby authorizes the Board of Directors to purchase, hold or transfer Company shares, with power to sub-delegate in compliance with the statutory provisions, and subject to compliance with currently prevailing legal and regulatory provisions, with particular reference to article L. 20-10-62 of the French Commercial Code, European Regulation (EU) no. 596/2014 of April 16, 2014 on market abuse, and market practices permitted by the *Autorité des marchés financiers* (French Financial Regulator), for the following purposes (not in order of priority):

- (a) to allocate or sell shares to employees and/or officers of the Company and/or of companies which are related to it or will be related to it under the terms and conditions set out in law, particularly for purposes of employee saving schemes, purchase option, free share allocation, and stock ownership plans (notably under the conditions of article L. 3332-1 *et seq.* and L. 3344-1 of the French Labor Code);

The Ordinary General Meeting resolves that:

- the unit purchase price must not exceed € 100 per share (excluding acquisition expenses);
- the total number of shares that the Company can acquire may not exceed 10% of its share capital; this threshold of 10% must be calculated on the actual date when the buy-backs are made. However, (i) this limit shall be 5% of the share capital with respect to the purpose specified in (c) above and (ii) when the shares are bought back to promote liquidity, in accordance with regulations in force, the number of shares included in the calculation of the 10% equals to the total shares less the shares resold during the authorization period.

Pursuant to article R. 225-151 of the French Commercial Code and taking into account the 10% cap and the shares already held by the Company, the General Meeting sets the overall maximum allocated to the buy-back program at € 372,213,890, which corresponds to a maximum of 3,722,138.90 shares with a nominal value of € 4 each at December 31, 2020.

Pursuant to this decision, within the limits permitted by the regulations in force, the shares may be purchased, sold, exchanged or transferred at any time including during a public offering, in one or more transactions, by any means, on all markets and over the counter, including by acquisition or sale of blocks, and by means including the use of derivatives and warrants.

The General Meeting resolves that the Board of Directors shall be entitled to implement this resolution at any time during a period not to exceed eighteen (18) months with effect from this General Meeting, including during a public offer period, within the limits and subject to the terms and conditions and abstention periods specified by the law and *Autorité des marchés financiers'* General Regulations.

This authorization annuls and replaces the authorization granted by the General Meeting of April 3, 2020 with respect to the remaining period of validity.

The General Meeting grants all powers to the Board of Directors, with the option of sub-delegation under the terms and conditions of the law, for the purpose of:

- implementing this authorization and continuing to execute the share buy-back program, allocating or re-allocating the shares acquired for the various purposes in compliance with legal and regulatory provisions;

- entering into all agreements, in particular for the purpose of keeping share purchase and sale registers, filing all declarations with the *Autorité des marchés financiers* and all other bodies;
